NO-ONE MAKES AN ENTRANCE LIKE A RHINO

Style and security.

No corners cut.

We are proud to introduce our range of stylish aluminium front doors, all of which are developed, designed and manufactured in our UK-based factory on a dedicated production line.

The front door to any property is the main focal point of a building's exterior. A Rhino Door will add a touch of distinctive elegance to the entry of your home. Our entrance doors bring many benefits, including aesthetics, security, functionality and performance.

Rhino Doors are engineered to the highest industry standards and boast a wide variety of styles, ranging from sleek and subtle to superior and grand contemporary designs.

Engineered To The Highest Industry Standards

Crafted in Britain.
Built to Perform.

Hand-crafted and expertly finished in Britain, Rhino Doors are manufactured entirely in-house using rigorously climate-tested materials to ensure lasting performance.

Contemporary and traditional styles are available across a wide range of finishes, including textured powder coat as standard.

We offer partnership opportunities and an easy-to-use online trade quoting tool, with fast lead times of just 15–20 working days.

Every door is carefully delivered in customised Rhino Door protective packaging.

DOOR STYLES

With their sleek, unblemished surfaces, Rhino Doors offer a truly striking aesthetic designed to impress visitors, enhance first impressions, and significantly elevate a home's kerb appeal.

Each Rhino Door style is uniquely named after the natural habitats of the rhinoceros; reflecting strength, resilience and timeless beauty inspired by the environments these powerful animals call home.

From subtle, understated designs to bold and more architectural statements, our collection offers a wide range of styles to suit every property.

Whatever the preferred décor or architectural style, Rhino Doors provide the perfect finishing touch. Combining exceptional performance, refined design and extensive customisation options, a Rhino Door delivers security, durability and elegance you can always rely on.

- Untinted

Sandblast

- Satin finish
- 100% privacy

Ceramic Collection

The Rhino Door Ceramic Finish Collection combines advanced material technology with striking architectural design.

Each door is crafted using precision engineered aluminium and high-performance ceramic surfaces to deliver exceptional durability, stability and security.

The result is an entrance door that offers the warmth and character of timber without the limitations of traditional materials.

Beautiful. Durable. Designed to last.

What is a Ceramic Door Finish?

Our ceramic finishes are created using a specialist bonded coating system applied to aluminium door panels.

This advanced process produces:

- Exceptional surface durability
- Realistic metallic depth and texture
- Superior resistance to weathering
- Long-term colour stability
- Minimal maintenance requirements

COLOUR OPTIONS

Standard Colours

We maintain a stock of doors in the following standard colours:

HYPCA WHITE
RAL **9910**

ANTHRACITE GREY
RAL **7016**

JET BLACK
RAL **9005**

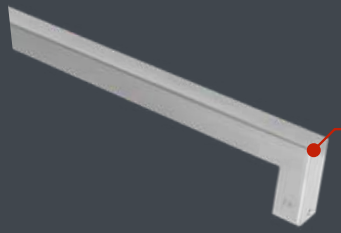

Alternative Colour Options

Aside from our standard colours, we can also offer a more personalised finish. Select any colour from the RAL chart and even opt for a dual-colour finish. This means there are over 500 different choices available, all of which are powder-coated for a long-lasting, fade-resistant finish.

HARDWARE OPTIONS

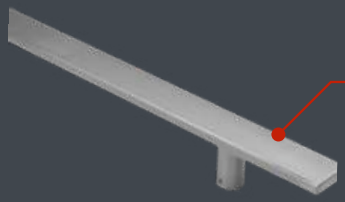

Supplement your aluminium door with our range of premium hardware. We have stainless steel handles designed for ease of use that won't rust or corrode. We can also provide a selection of long-lasting hinges that ensure a consistent, reliable performance.

Square Mitred Handle

Our Standard Handle

Available in lengths
900mm / 1200mm /
1600mm

Flat Bar Handle

Available in lengths
1000mm / 1200mm /
1800mm

Round Inline Bar Handle

Available in lengths
1000mm / 1200mm
/1800mm

OPENS YOUR LIFE

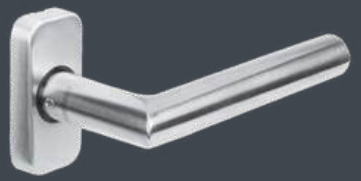

Dr. Hahn®
HINGES. MADE IN GERMANY.

Hahn Rollenband AT

Rhino Doors can be fitted with Hahn Rollenband AT, a highly adaptable hinge system that ensures a consistent performance. Features include:

- Hinges adjustable in six directions
- One-piece, stainless steel bearing pin for high levels of stability
- 20mm roller diameter for an unobtrusive design

Standard Hardware

We have an exclusive collection of stylish hardware for our Rhino Doors. Our stainless steel locks, handles and accessories are just as durable as they are attractive and make the perfect finishing touch.

YOUR FINGER. YOUR KEY.

WINKHAUS AV4 LOCKING SYSTEM

The Winkhaus autoLock AV4 is an automatic multi-point locking system that triggers security hooks immediately upon closing the door, without requiring a key or handle lift.

All important aspects at a glance

- Automatic Slam-Shut Locking: Two anti-push-back hooks engage automatically when the door closes via a central magnetic trigger.
- Low Operating Force: Requires 40% less force than the AV2, making opening easier for users with limited mobility or arthritis.
- High Installation Tolerance: Wide adjustment range reduces the need for frame realignment caused by expansion or weathering.
- Non-Handed Design: Suitable for left or right-hand opening, simplifying installation and reducing stock parts.
- Optional Day Latch (TaFa): Allows temporary key-free access by disabling automatic locking when required.

ULTION 3 STAR CYLINDER

The Ultion 3 Star Plus is a high-security Euro cylinder lock designed to prevent burglary methods such as lock snapping.

Features:

- Lockdown Mode™: If the lock is attacked, a hidden firing pin secures the central cam, preventing further access.
- 3-Star TS007 Rating: Meets the highest British Standard for cylinder locks.
- Sold Secure Diamond Approved: Tested and approved by locksmiths.
- Molybdenum Core: The lock has a strong internal core, 60% thicker than standard keys.
- Police Preferred Specification: Secured By Design accredited.
- Key Control: Keys are designed to be difficult to copy without the unique key code.
